

### Antifoam E2

Water dispersible chemical defoaming agent.

#### Recommended areas for use

To knock down the foam in cleaning or rinsing fluid in spray in air or air bubble cleaning systems.

#### Instructions for use

Recommended process temperature: 25 – 45°C

Shake before use

#### Product information

- Possess lower surface tension than the system to which is added
- Leave no residue or odor
- Contain silicone

#### Physical and chemical properties

Product appearance: milky liquid

Odor, aroma: organic **E2**

Ionic structure: Nonionic

pH: 7

Flash point: no

Density at 20°C: 0,98 kg/l

Dilution ratio: **1.5 - 3:1000**

- Disperse readily in the system

**Antifoam E2**

**General information**

**Packing**

50 kg, 110 kg

**Transport**

UN number: No.

Transport hazard class: No.

**Handling**

Wear nitrile gloves while manipulation with the cleaning fluid.

**Storage**

Should be stored in closed containers, in ventilated areas at the temperature from 5 to 25 °C.

**Shelf life**

The minimum shelf life for this product is 6 months.

Return the used product for proper disposal to the nearest authorized collection location.

**Technical support**

For process implementation and setting, optimization and solving of process issues, trial test, contact our specialist at [www.afrachem.com](http://www.afrachem.com)

**Product features**

RoHS and REACH compliant, biodegradable, does not contain any halogenated compounds
