

Specification

8.00834.0100 Acrylonitrile (stabilised with hydroquinone monomethyl ether) for synthesis

Specification

Assay (GC, area%)	≥ 99.0	% (a/a)
Density (d 20 °C/ 4 °C)	0.805 - 0.807	
Water (K. F.)	≤ 1.0	%
Identity (IR)	passes test	

The material is stabilised with hydroquinone monomethyl ether.
At time of analytical testing a content of >10 ppm stabiliser was determined.
